

IMPORTANT ALERT

CRC COMMUNITY MEETING

Monday, February 22, 7 pm
Rockmosa Community Hall
74 Christie Street

We have booked Rockmosa Community Hall for a CRC Community Meeting on **Monday, February 22** to update everyone on the OMB process, and what we need to continue the fight all the way to the OMB hearing in the fall.

When you think that the second OMB Pre-Hearing Conference on the Hidden Quarry application will take place on March 2nd, it's time we got together again!

As we plan for this meeting, we want to know what **you** need/want to know.

- ***What are your questions about the status of the Hidden Quarry application?***
- ***What are your questions about CRC's role as we approach the OMB hearing?***
- ***What would you like to learn at the meeting?***

Please send your questions and comments to me, Linda Sword lsword@xplornet.ca and we will make sure we have answers for you.

At the meeting we will be ready to present solid information and some wonderful surprises, but most of all we need to talk with you about our **community's strategy to win this case and defeat the Hidden Quarry application.**

Consider this:

For **three** years you have been supporting the CRC. All this work has been preparing us for this next moment, the **OMB Hearing in September 2016** at which CRC will be one of the representatives for our community. But **our work is far from finished!** **It has never been more important** for residents to band together than now:

- If we are **to be heard** by a distant Board which does not know our community...
- If we are to **make the best possible expert case** that a quarry is not compatible with our community or environment...
- If we are to **stop** the plans for a quarry...

- If we are to **protect** our families and our environment...
- If we are to **leave a legacy** for our children!

Your attendance over the past 3 years at countless CRC, GET, Milton and Halton Hills meetings has shown how strong a collective voice we are, and how we are also a collective of powerful individual voices.

Let's come together again on February 22nd. Let's build on our many successes as we face the final OMB test!

Together we can do this!

Your fellow concerned resident,

Linda Sword
