

6th Annual CRC PLANT SALE

NEXT SATURDAY, MAY 18, from 8 to 1 PM – At REMAX at the lights in downtown Rockwood!

Come one, come all! Joyce Hill and a team of devoted CRC gardeners are once again growing things for you! Just as they have over the past 6 years!

They are also growing CRC funds!

Joyce has sent along her list of vegetables on offer! And there will be more, including pots decorated by Jerrie Schummer. Manure too!

And CRC Cookbooks – Another opportunity to buy these treasures – just \$20!

Do you want to donate perennials? Please contact Peter Kauss at pkauss@crcrockwood.org.

Here's Joyce's little list for 2019! It gets more intriguing every year!

Broccoli

Italian heirloom, apple green spiral head, delicious flavour, 75-90 days from transplant.

Cucumbers

Boothy's Blonde - creamy white fruit, best eaten about 4" long, perfect for bread and butter pickles, 55-60 days

Chicago - pickling

Longfellow - slicing, best picked when 12" long by 2" wide more 76 - slicing 4 4 - Marketmore 9" long, good yield, delicious flavour.

Tante Alice - Quebec heirloom, large fruit, excellent taste, resistant to many pests and diseases.

Leeks

Giant Musselburg - large with great flavour

Tadorna - blue-green shafts, 108 days, plant deep.

Peppers

Black Hungarian - hot as a Chili pepper 65-70, ripens green to deep purple to red.

Long Cayenne - 75 days, use fresh or dry.

King of the North - 70 days, blocky, sweet, thick, firm flesh.

Matchbox Chili - 65 days, grows well in pots, dries very well.

Redstart -65 days, 3-4 lobes, thick walls, delicious sweet

Super Shepherd - 68 days, dark red, tapered, sweet.

Squash

Waltham butternut - 82 days, deep orange interior.

Tomatoes

Black Krim - 85 days from transplant, dark purplish with green shoulder medium to large fruit, intense taste.

Cherokee Purple - 75-80 days, large fruit, delicious.

Cosmonaut Volkov - 65-70 days. A most productive, medium to large fruit, complex, delicious, tangy flavour.

Cup of Moldova - 75-80 days, deep red dry thick flesh makes very rich tomato sauce, abundant 3" fruit.

Druzba - 70 days, 8 to 12-ounce deep red globed fruit, 3-4 in a cluster. A problem free tomato.

Elfin - 55-60 days, small, red, oblong, grape type fruit. May be grown in a large pot.

Peace - 80 days, pinkish red beefsteak 10-16 oz. fruit

Riesenstraube - cherry variety, 1" oval red fruit hangs in clusters on vine.

Roma V F - 75 days plum paste tomato

Sweet Orange Cherry - produces fruit all summer, 75 days from transplants

Herbs - Basil, Dill - fern leaf and plain, Parsley-curly, Parsley-large leaf, Perilla (Japanese parsley), Sage
