

# 5 steps to **contaminated water** from Hidden Quarry excavation

Rockwood's water comes from groundwater wells. In Walkerton, 100 km northwest of Guelph, groundwater contamination killed seven people in 2000 and endangered dozens more.

Here's how Rockwood's groundwater **is at risk of being contaminated** if Hidden Quarry goes ahead.

**Drinking contaminated water can lead to illness and death for children, adults, elderly and pets.**

**How can we prevent a groundwater tragedy in Rockwood?**
